### A Facet For The Gem

Facets, those "geometrically arranged, flat surfaces" that cover faceted gemstones, all play specific roles in a gem's optical performance. When expertly cut, facets not only create beautiful patterns on the gem, they also help it shine. Sometimes, literally. Different types of gemstone facets have specific names, too.

### Gemstone Facets: Terminology and Functions - International ...

A Facet for the Gem is a coming of age fantasy that brings Morlen from distant kingdoms to sprawling aerial battles, into the fiery breath of a stony dragon and side-by-side with a lady knight who is the last person to need rescuing. Fly with him as his epic adventures culminate in a final showdown against swords, fangs, and greatest of all: his own fear.

### Amazon.com: A Facet for the Gem (The Tale of Eaglefriend ...

Faceting methodology consists of (A) cutting appropriate angles on the top and bottom of a gem crystal, because (B) the faceting machine forms a right triangle that controls the stone's angle on the abrasive disk, and (3) a faceter to hold the stone against the turning lap wheel and monitor progress in cutting the "crown" i.e, the top of the gem, and the "pavilion" i.e., the bottom of the gem. Obviously, traditional faceting is a two-step process...

### How to Facet Gems - International Gem Society

Gemstone faceting is a marvelous amalgam of engineering and art. Through a mechanical process of cutting surfaces on a piece of crystal, beautiful gems are created. To beginners, faceting may appear very complicated, but that isn't really the case. Faceting does have complex subjects, like competition cutting and design.

### Lapidary Fundamentals: Gemstone Faceting - International ...

Facet is a human scholar and researcher of light springs, a source of energy for all jewel princesses. Facet first appeared as the owner of a small lodge in the mountains visited by the protagonist team - Star Savior, Tinctura, Aqua Aura and Seraphinite. The team was seeking shelter from the blizzard created by the Zolne.

### Facet | Housekihime Wiki | Fandom

The art of cutting a gem is an exacting procedure performed on a faceting machine. The ideal product of facet cutting is a gemstone that displays a pleasing balance of internal reflections of light known as brilliance, strong and colorful dispersion which is commonly referred to as "fire", and brightly colored flashes of reflected light known as scintillation.
