ORLANDO, Fla.

(December 1, 2016) -

According to a new AAA survey, two out of three U.S. drivers do not trust auto repair shops in general - citing overcharges, recommendations for unnecessary services and poor past experiences for their lack of confidence.

number of remote attacks that have nothing to do with sending messages on automotive networks such as CAN, a large focus of this paper.

These mostly fall into two categories. The first are attacks where the remotely attacked ECU is the final target of the attack.
