It may sound counterintuitive, but according to philosopher John Perry, you can accomplish a lot by putting things off. He calls it “structured procrastination.” Celebrating a nearly universal character flaw, *The Art of Procrastination* is a wise, charming, compulsively readable book—really, a tongue-in-cheek argument of ideas. Perry offers ingenious strategies, like the defensive to-do list (“1.

Procrastination also allows creative development. Visualize a situation where a man was given a difficult task that's taking hours to complete despite previously believing that the assignment was going to be a breeze. He begins frustrated and tired of thinking, so he searches the web for solutions.

Structured procrastination is the art of making this negative trait work for you. The key idea is that procrastinating does not mean doing absolutely nothing. Procrastinators seldom do absolutely nothing; they do marginally useful things, such as gardening or sharpening pencils or making a diagram of how they will reorganize their files when they get around to it.
