The Art of Technical Documentation (Software Development ...

Technical documentation is both the work one does when he/she prepare technical documents and the result of his/her work. All technical documentation is nonfiction and all technical documentation has technical content—whether the purpose of the piece is reportage, instruction, or persuasion. There are three types of technical documentation: marketing materials, materials that report, and instructional materials.

What is Technical Documentation and Why it Matters | by ...

Technical documentation refers to any document that explains the use, functionality, creation, or architecture of a product. Think of it as a nuts-and-bolts “how to” guide for your users, new hires, administrators, and anyone else who needs to know how your product works. But while that sounds pretty straightforward, the results rarely are.
