A Second Engineer (First Assistant Engineer) is a licensed  
member of engineering department on a merchant vessel and  
directly reports to the chief engineer. The second engineer  
assists the Chief Engineer in vessel technical operations  
including specific tasks and, in all duties delegated by the Chief  
Engineer. The primary function of the Second Engineer is to  
supervise the daily operations and maintenance of all machinery  
including the ballast system, plant and fire-fighting equipment  
on-board.

A second engineer or first assistant engineer is a licensed member of the engineering department on a merchant vessel. This title is used for the person on a ship responsible for supervising the daily maintenance and operation of the engine department. They report directly to the chief engineer. On a merchant vessel, depending on term usage, "the First" or "the Second" is the marine engineer second in command of the engine department after the ship's chief engineer. Due to the supervisory role t
