**Carving Out the Commons — University of Minnesota Press**

Carving out the Commons develops a theory of the urban commons through an investigation of limited-equity housing cooperatives in Washington, DC. In the mid-1970s in the US, waves of gentrification led to the displacement of lower-income residents who were unable to afford rising rental prices, and who were evicted to make room for new developments.

The types and in some cases the numbers of animals each tenant could pasture were limited, based at least partly on a recognition of the limited carrying capacity of the land. The decline of the commons system was the result of a variety of actors having little to do with the system's inherent worth.
