Caterpillar engines and engine systems provide power to the world. Our engines provide power to trucks, ships and boats, our own construction and mining machines, and much more. Electrical power systems supply both primary and standby power for a variety of uses -- like off-shore oil rigs, huge mines in remote deserts or mountain ranges, entire ...

Caterpillar Engines - US Engine Productions Inc. - EngNet

This featured new power-assisted planetary operated blade controls and the D333 engine was boosted to 125 flywheel horsepower. Power steering was now standard rather than an option. The 12F was the final variant of the No.12 grader to have a rigid straight through chassis, and is where we end this segment on the No.12 grader.

Found out that wasn't right, The D6 was last made in about 1957 with the D318. Then CAT went to the D6B with a D333 engine. I guess this means that engine almost certainly is older than 1957. Could be a lot older. The best information I have on the generators showed about a 50kw generator on the 318. Jim
