A good reference, slightly more advanced than the RHEL Bible series of books : Nov. 2007 : Fedora Linux Toolbox: 1000+ Commands for Fedora, CentOS and Red Hat Power Users, Christopher Negus & Francois Caen : Wiley & Sons : Recommended for those wanting to brush up on their command line skills

Books - CentOS Wiki

You should use the upstream docs for CentOS 6 and 7. There was a license change in the docs and there has been considerable debate as to whether CentOS can clone it so nothing has ever been done about doing so. For 99% of things, the RHEL doc is the same - only in areas regarding RHN and subscriptions should it be different.

good book about centos 7 - CentOS

As you download and use CentOS Linux, the CentOS Project invites you to be a part of the community as a contributor. There are many ways to contribute to the project, from documentation, QA, and testing to coding changes for SIGs, providing mirroring or hosting, and helping other users...
