(overview of various diseases)* The purpose of surveillance is to try to detect where disease organisms, such as bacteria and viruses, occur in Texas.

ZCB | Disease - Texas Department of State Health Services

(1) "Communicable disease" means an illness that occurs through the

Online Library Communicable Disease Notes

transmission of an infectious agent or its toxic products from a reservoir to a susceptible host, either directly, as from an infected person or animal, or indirectly through an intermediate plant or animal host, a vector, or the inanimate environment.

Flu - Texas

Department of State Health Services

The two epizootics expanded to involve a total of 74 Texas counties (21 South Texas counties and 53 West-Central Texas counties). In February 1995, the Texas Department of State Health Services (DSHS) initiated the ORVP as a multiyear program with a goal of creating

Online Library
