Computer NetworksDefinition: Computer networking is the engineering declipline concerned with the communication between computer systems or devices. A computer network is any set of computers or devices connected to each other with the ability to exchange data. 4.

Basic concepts of computer Networking

by Dr. Sanjay Sharma. ... So, if you ask me, IT is NOT a bible of computer networks. In fact, it should be recycled once you are done with it. But this is most definitely the 1st book on data networks, it has taught me more on any single topic than any other book I have read ever. The name of the book is misleading, it says "Data and compute ...
