Discovering Statistics Using R takes students on a journey of statistical discovery using R, a free, flexible and dynamically changing software tool for data analysis that is becoming increasingly popular across the social and behavioural sciences throughout the world. The journey begins by explaining basic statistical and research concepts before a guided tour of the R software environment.

Discovering Statistics Using R - Discovering Statistics

Field's Discovering Statistics is popular with students for making a sometimes deemed inaccessible topic accessible, in a fun way. In Discovering Statistics Using R, the authors have managed to do this using a statistics package that is known to be powerful, but sometimes deemed just as inaccessible to the uninitiated, all the while staying true to Field's off-kilter approach.

Welcome. This website contains materials relating to the forthcoming Discovering Statistics Using R and RStudio (2nd edition). The discover menu gives information about interactive R tutorials that accompany the book. The solutions menu gives access to Smart Alex solutions, R code, and Labcoat Leni solutions. The About menu tells you about me, so probably don't bother with that one.
