End The Fed

The Federal Reserve, “the Fed”, is the central bank of the United States of America that was created in 1913 by Congress. It is a banking cartel that has a government-granted monopoly on the creation of money and credit. The Fed literally loans “money” (Federal Reserve Notes) into existence.

End The Fed | Exposing the fraud of the Federal Reserve System

At first glance, abolishing the Federal Reserve and returning to the gold standard seems a quaintly eccentric idea, but Texas congressman Paul presents a plan to eliminate our country's central bank, and return to a private banking system, that's both serious and plausible.

Download Ebook End The Fed

End the Fed is a 2009 book by Congressman Ron Paul of Texas. The book debuted at number six on the New York Times Best Seller list and advocates the abolition of the United States Federal Reserve System "because it is immoral, unconstitutional, impractical, promotes bad economics, and undermines liberty."

End the Fed - Wikipedia

Most people think of the Fed as an indispensable institution without which the country's economy could not properly function. But in End the Fed, Ron Paul draws on American history, economics, and fascinating stories from his own long political life to argue that the Fed is both corrupt and unconstitutional.

in showing that our nation's economic problems are magnified and often even brought on as a direct result of the actions of the Federal Reserve.

End the Fed by Ron Paul - Goodreads

Booms and busts, bubbles and bursting bubbles. And a never-ending devaluation of people's money, to such an extent that silver coins, which FDR, for some reason, had not made a felony to possess, were ultimately driven out of circulation by all the bad money that the Fed was flooding into the economy every decade since 1913. Ending the Fed
