European History Us History

The peoples of Europe have had a tremendous effect on the development of the United States throughout the course of U.S. history. Europeans "discovered" and colonized the North American continent and, even after they lost political control over its territory, their influence has predominated due to a common language, social ideals, and culture.

History of Europe, history of European peoples and cultures from prehistoric times to the present. Europe is a more ambiguous term than most geographic expressions. Its etymology is doubtful, as is the physical extent of the area it designates. Its western frontiers seem clearly defined by its coastline, yet the position of the British Isles remains equivocal.

It starts with the barbarian invasions of the fourth century, reminding us that "the origins of Europe were hammered out on the anvil of war". And it concludes with the settlement of the second world war, by which war disappeared from the European horizon, although Europeans may well meditate Leon Trotsky's remark that "you may not be interested in war, but war is very interested in you."
