## **Filters For Digital Photography Heliopan**

Heliopan has been creating hand-crafted photographic filters for nearly 70 years. Whether for analog or digital photography, we offer a wide assortment of products that often cannot be found anywhere else in the world. Each bespoke filter is made exclusively from Schott Glass for superior optical quality and is fitted.

## **Heliopan Filters**

HELIOPAN manufactures all filters from glass from the German SCHOTT group. Their optical properties surpass that of gel filters. In addition they are extremely resistant against aging and fading. During production absolute parallelism is a must. To guarantee the filter's effect the light transmittal must be uniform.

I thought I would give it a go. All my other filters are Hoya super multi coated and I am wondering if I would have been better off sticking to that.

### **Heliopan Filter: Open Talk Forum: Digital Photography Review**

Polarizing filters help reduce reflections and glare by filtering out polarized light reflected from non-metallic surfaces.

The resulting effect is a noticeable increase in the saturation of skies and foliage, as well as clearer imagery when photographing in hazy conditions.

### **Polarizing Filters - Heliopan Filters**

These are both high-grade lens filters that are currently available at huge discounts. The Heliopan Filter is normally listed as \$278. Even at the sale price, the Heliopan filter costs a lot more, but for that you get some extra build quality. For instance, it is made from Schott glass, which is known for exceptional optical clarity.
