Food Sovereignty Agroecology And Biocultural

To achieve food sovereignty, agroecology and biocultural diversity, there is a need to re-imagine and construct knowledge for diversity, decentralisation, dynamic adaptation and democracy. The authors critically explore the changes in organizations, research paradigms and professional practice that could help transform and co-create knowledge for a new modernity based on plural definitions of wellbeing.

Food Sovereignty, Agroecology and Biocultural Diversity ...

Deepening democracy in the construction of knowledge for food sovereignty, agroecology and biocultural diversity depends on further strengthening grassroots research and innovation networks. In sharp contrast, networks of peasant farmers, pastoralists, indigenous peoples, fishers, food workers, forest dwellers and other citizens create knowledge and innovations through self-organizing processes under their control.

Food Sovereignty, Agroecology and Biocultural Diversity

'Food sovereignty' is understood here as a transformative process that seeks to recreate the democratic realm and regenerate a diversity of autonomous food systems based on agroecology, biocultural...

Food Sovereignty, Agroecology and Biocultural Diversity ...

Achieving food sovereignty, agroecology and biocultural diversity is a transforma-tive process that seeks to expand the realms of democracy and freedom by regener-ating a diversity of autonomous food systems based on social justice and ecological sustainability (Pimbert, 2008). As part of this transformation, 1 social movements are

FOOD SOVEREIGNTY, AGROECOLOGY AND BIOCULTURAL DIVERSITY

Food Sovereignty, Agroecology and Biocultural Diversity is essential reading for all who can see that the dominant paradigm has run its course. We need both to rethink, and to rethink the way that we think. Colin Tudge is co-founder of The College for Real Farming and Food Culture.
