The number of homes with other smart devices, like refrigerators, vacuums, yard irrigation systems, and door locks, will more than double to 26.7 million in 2022 — or about 20 percent of households...

The Race to Create the Coolest Smart Home Devices Is ...

The vision of a "smart" home as one integrated system is falling. The "connected" value built into the devices and associated services is too narrow and siloed: They don't work together easily or create magical experiences. Furthermore, vendors struggle to lure consumers into paying ongoing subscriptions.

Predictions 2019: The Internet Of Things - Home - Forrester
