solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials.

Mixtures And

Solutions Unit:

Solutions Video

The science learning goals for the unit were a)

- Students will come to know and understand that
- A mixture combines two or more materials that retain their own properties.
- A solution forms when a material dissolves in a liquid (solvent) and cannot be retrieved with a filter.
