Steve Tadelis Personal Web Site - Berkeley Haas

Steven Tadelis, Matt Backus, Tom Blake, and Dimitriy Masterov We study expectation-based reference point formation using data from ascending auctions in an online marketplace. Our model formalizes the hypothesis that a disappointment-averse bidder who spends more time in the lead prior to a sudden loss will suffer a higher degree of disappointment.

Steven Tadelis | Berkeley Haas

" Game Theory fills a void in the literature, serving as a text for an advanced undergraduate—or masters-level class. It has more detail than most undergraduate texts, while still being accessible to a broad audience and stopping short of the more technical approach of PhD-level texts.
