How To Fill A Manual

How to Put Fluid in a Manual Transmission. Adding fluid to a manual transmission is more difficult than adding fluid to an automatic transmission. For an automatic transmission, you just pop the hood and add the fluid into the dipstick hole. For a manual transmission, you have to get under the car. Adding fluid to a manual transmission can be messy.

How to Fill a Syringe (with Pictures) - wikiHow

Attach the clear tubing to the funnel and make sure it's a snug fit. Drop the end of the tubing down to the fill hole. Slide the end of the tube into the fill bolt hole and make sure it isn't too loose, so it won't come out while filling. Pour each bottle of Honda Manual Transmission Fluid down the funnel. A little excess fluid will leak out because the car takes 1.9 quarts and each bottle is one quart.
