Technically speaking the GTX 960 4GB requires, 2 things; a PCIE (6pin) connectors, and 400W, which both I truly believe is lacking on a Z220 HP workstation. your possible 400W from HP is more like a 320W to be honest, if it is an ATX format PSU, then get a 500W/550W modern psu and you should be fine then.
