If the Universe Is Teeming with Aliens ... WHERE IS ...

Science and science fiction collide to pose answers to a fundamental question about our universe If the universe is so old and so big, shouldn't there have been ample opportunities for other solar systems, planets, life forms, intelligence, and technology to form? Some these civilizations must be millions of years older than us on Earth, so surely should have developed the capability to communicate and travel through from star to star and galaxy to galaxy.
