Improvised and craft-produced light weapons—including mortars, recoilless weap - ons, and grenade launchers—are produced with some regularity in most conflict zones. The sophistication of light weapons is on the rise and the rate of production of some weapons in certain conflict zones is nearing the industrial scale.

Small Arms Survey Report

It is rare for an inmate to have a firearm within a correctional facility. The most common threat faced by correction facility staff is from pointed- and sharp-edged weapons. Most of these are homemade or improvised weapons, obtained through a variety of sources in the corrections environment.

Improving Correctional Officer Safety: Reducing Inmate Weapons

An improvised weapon is an object that was not designed to be used as a weapon but can be put to that use. They are generally used for self-defence or if the person is otherwise unarmed. In some cases, improvised weapons are commonly used by attackers in street fights, muggings, murders, gang warfare, during riots, or even during insurgencies, usually when conventional weapons such as firearms ...

Improvised weapon - Wikipedia

Shiv, also chiv, schiv, and shivvie, is a homemade knife-like weapon, especially one fashioned in prison. The word is possibly derived from the 1670s underworld cant word for "knife," chive. Other sources list the Romani word for the same object, chivomengro, as a more likely origin.
