I propose that the more complex the characteristics of a project, the greater the need to have early and significant Work. I also propose that a collaborative Manner of work would be beneficial, regardless of project ...

Inter-firm collaboration and project performance

Abstract. Organizational learning in inter-firm exchange relationships poses a double-edged sword. On one hand, inter-firm learning is a desirable extension of organizational learning, developing a firm's knowledge base, and providing fresh insights into strategies, markets, and relationships. On the other hand, inter-firm learning can lead to unintended and undesirable skills transfer, resulting in the potential dilution of competitive advantage.

Managing the paradox of inter-firm learning: the role of ...

The foundation of effective inter-firm relationships is the understanding that all firms can benefit at the same time—that "win-win" relationships are possible and desirable. This is in sharp contrast to the belief that firms are operating in a zero-sum game, in which one firm in the relationship can only win if the other firm loses.

Inter-firm collaboration, learning and networks : an ...

When it comes to innovation and new business development, there is a need to not only maximize internal resources and capabilities but also to complement these internal resources. Research has shown that firms have become increasingly reliant on external knowledge and collaboration with other firms to enhance or complement their internal innovation activities for increased innovation, and on scientific knowledge, which is increasingly important.

Interfirm Collaboration - Oxford Scholarship

Abstract. Interorganizational systems (IOS) can play an important role in stabilising the relationship between firms. More recent evidence suggests that such systems can also facilitate new collaboration between firms in strategic areas. However, successful inter-firm collaboration depends not only on the technological support of IOS, but also a wide range of other, non-technological factors.

New collaboration between firms: the role of inter ...

collaboration and inter-organizational learning processes. The contribution of this paper lies in, firstly, unpacking the 'black box' of collaboration through focusing the attention on social and cognitive processes involved and, secondly, providing the building blocks for a theory
