Found this user guide two days after installing Linux Mint 14 alongside Windows 7 and 8. I had no problems at all with the installation. I just wish that I've read this earlier.

The Linux Mint User Guide - Linux Mint - Community

Personally, Linux Mint is the preference as it offers a very simple, yet wonderful and nice-looking environment for any Linux users. Linux Mint is based on the popular Linux distro - Ubuntu. That leaves a very little room for worrying about software availability. Surprisingly, Linux Mint even surpasses the popularity of Ubuntu!

Linux Mint Add User - Linux Hint

As you can see, the output is the same as when displaying the content of the /etc/passwd file. If you are using LDAP for user authentication, the getent will display all Linux users from both /etc/passwd file and LDAP database.. You can also use awk or cut to print only the first field containing the username: `getent passwd | awk -F: '{ print $1}'`
