Hospital and specialist services are provided by professionals on government salaries working in government-owned hospitals and other facilities that are under the direction of regional authorities called hospital boards. Local health authority services provide maternity and child welfare, posthospital care, home nursing, immunization, ambulance service, and various other preventive and educational services.

National Health Service | British agency | Britannica

The National Health Service, more commonly known as the NHS, is one of the largest health services in the world to be funded by the public. It was established in 1948, when the ongoing need for good-quality healthcare to be available to everyone, not only those that could afford it, arose in a major way.
