Thomas Pogge and Scott Wisor. Abstract: This chapter documents a participatory approach to developing a new, gender-sensitive measure of deprivation that improves upon existing measures of poverty and gender equity. Over 3 years, across 18 sites in Angola, Fiji, Indonesia, Malawi, Mozambique, and the Philippines, men and women in poor communities engaged in a range of qualitative discussions and quantitative evaluation exercises to help develop the Individual Deprivation Measure.

"Measuring Poverty: A Proposal"

many of the issues related to poverty measurement and the determination of program benefit standards. On the basis of our deliberations, we recommend a new official poverty measure for the United States. Our recommendation is to retain the basic notion of poverty as material deprivation, but to use a revised concept for setting a
