means your price will also be competitive. You may not be low every time, but you will be in there very close.

Labor Units Manual - Durand & Associates

Divide the manhours per unit into 8 to find the number of units one electrician can install in one 8- hour day: 8 divided by .250 equals 32 units per day. Multiply that amount by the number of crew members to find the number of units the crew is likely to install in an 8-hour day.

\$87.75 2018 NATIONAL ELECTRICAL ESTIMATOR SAMPLE

Each company should select a database of labor units as its standard, be it published or company-created. I recommend the NECA Manual of Labor Units, as these are the benchmark of the electrical construction industry. They are periodically updated to keep current. Most published labor unit databases available today are directly affected by NECA's.

NECA's Manual of Labor Units goes digital through Trade ...

I have been exposed to quite a few collections of labor units during my career, including six different estimating systems, four employers' in-house labor units, and the NECA Manual of Labor Units (MLU). If you intend to use the NECA MLU, it is important to actually read and understand the introduction in the beginning of the manual.
