NS-5000 - Specs - Yamaha - UK and Ireland
Yamaha's heavily retro-styled NS-5000 loudspeaker is a superb high-end loudspeaker with huge all-round ability Back in 1974, Yamaha released the NS-1000 loudspeaker. A purple period for the company, it seemed to be launching an endless stream of great products.

Yamaha NS-5000 | Hi-Fi Choice
The NS-5000 is a spiritual successor to their vaunted NS-1000M which was one of the first, if not the first, speaker to use Beryllium as a diaphragm material. The NS-1000 speaker series was a very successful platform for Yamaha that was introduced in the mid-'70s and lasted to the mid-'90s over a 20-year production run.

Yamaha NS-5000 Loudspeaker: Retro Look, Futuristic ...
A major area of departure for the NS-5000 is the fact that it uses a bass reflex port, when the NS-1000M was a sealed box design. Yamaha says it gives better sensitivity and ease-of-drive. Claimed frequency response is 26Hz to 40kHz (-10dB), with power handling put at 600W.

Yamaha NS-5000 | zStereo
Yamaha NS-1000 The new NS-5000 fits in a series of monitors that also include the familiar NS-10, NS-1000 and NSX-10000. There is virtually no studio where the NS-10 is missing. The NS-10 (1978) was initially designed as a bookshelf hi-fi speaker by Akira Nakamura, following the NS-20 and NS-30 (1968).

REVIEW: YAMAHA NS-5000 - Homecinema Magazine
The GT-5000 used a Sumiko Starling cartridge, and the full 5000 series rig, sat upon SolidSteel racks was played through some gloriously deep, shiny piano black-finished, Yamaha NS-5000 speakers. The large stand-mounted speakers are loaded with three drivers, all of which use Zylon.

The Yamaha NS-5000 can get the same legend status as the NS-1000M, because they have many of the same quality but are even better speakers in all areas. A speaker that definitely challenges many established speaker manufacturers in the high-end layer. Yamaha NS-5000 Characteristics Type: Three-way floor-standing bass reflex

Yamaha NS-5000 sound test and review , user's review, video
The Yamaha NS-5000s are unusual yet beguiling speakers, clearly successful in their tribute to the original NS-1000s. Packed with modern technology and contrasted by the traditional yet exquisitely finished aesthetic, they are a definitive departure from the design brief of most mainstream high-end loudspeakers.

SoundStageAustralia.com - Yamaha NS-5000 Loudspeakers
If Yamaha's NS-5000 Speakers evoke a strong sense of Deja Vu, it's because in a way they've been here before. Only the first time around they were called the NS-1000. This was back in 1974 when they were unleashed on an unsuspecting audiophile market. A market that at first, didn't know what to make of this pearly of a speaker.

Yamaha NS-5000 Premium Flagship Loudspeakers Review ...
All that being said, Yamaha is using some pretty clever and proprietary acoustic devices internally in the NS-5000, both for the domes and the bass driver, so perhaps they have solved the boominess typical of most ported boxes, although not completely, I guess, judging by the paragraph headed "Hole in one" in this review written by someone ...
