We propose a deep convolutional neural network architecture codenamed "Inception", which was responsible for setting the new state of the art for classification and detection in the ImageNet Large-Scale Visual Recognition Challenge 2014 (ILSVRC 2014). The main hallmark of this architecture is the improved utilization of the computing resources inside the network. This was achieved by a ...

WELCOME TO FBISE

In this paper we study the problem of blind deconvolution. Our analysis is based on the algorithm of Chan and Wong [2] which popularized the use of sparse gradient priors via total variation.

Online Library Paper Computer Pattren 2014

We use this algorithm because many methods in the literature are essentially adaptations of this framework.

Almost every day I have someone ask me how to print the patterns that are here on Moogly. Using cut and paste can work, or trying to print the screen - but that can grab ads, comments, and all kinds of stuff that will waste paper and ink. There's a much simpler option - and it allows you to download them as PDFs too! It's the Print Friendly button, and here's how to use it.
