Robert Lanza Biocentrismo

Biocentrism is a new "Theory of Everything" proposed by American scientist Robert Lanza, which sees biology as the central driving science in the universe, and an understanding of the other sciences as reliant on a deeper understanding of biology. Lanza believes that life and biology are central to being, reality, and the cosmos.

Robert Lanza, M.D. - BIOCENTRISM

Biocentrism, also referred to as the biocentric universe, is a theory proposed by renowned scientist, Robert Lanza. This theory explains that life and biology are the central pieces to being, reality and the cosmos. It explains how life creates the universe rather than the other way around. Biocentrism builds upon the ideas of quantum physics.

Robert Lanza - Wikipedia

Robert Lanza's concept of Biocentrism is as profound as Copernicus' heliocentric model was in the 1400s. Lanza postulates that it is life that creates the universe instead of the other way around.

Biocentrism / Robert Lanza's Theory of Everything

El doctor Robert Lanza sugiere que la vida y la conciencia son absolutamente fundamentales para poder comprender el universo, en lugar de tratarse de una consecuencia tardía y secundaria, manifestada al cabo de miles de millones de anos de procesos físicos inertes. Y esta nueva perspectiva es lo que el llama biocentrismo.
