...

The 1973 Yom Kippur War rewrote the textbook on the tactics of modern armored warfare. Unlike the previous major Arab-Israeli war of 1967, the Israeli Defense Forces (IDF) faced an enemy that had invested heavily in modern Soviet weapon systems and tactics. Using detailed color artwork and insightful analysis, this book explains how the effective use of the Soviet-supplied AT-3 Sagger (9M14 Malyutka) anti-tank missile allowed small Arab tank-killing teams to destroy Israeli armor at an ...

## **Anti-tank guided missile - Wikipedia**

The control unit could be connected to four launchers. The operator tracked the missile via a periscope sight on the controller, using a joystick to guide it to the target. The missile spooled its control wires behind it as it flew. The anti-tank companies normally deployed in three-man teams, each carrying four Sagger missiles.

## **North Vietnam's AT-3 Sagger Anti-Tank Missiles**

When the Soviet Army, as it was known in 1963, introduced the AT-3 'Sagger', it introduced to the world the first generation of wire-guided anti-tank missiles and at a stroke changed the shape of warfare. In this book, the latest in the Duel Series', the author considers the Sagger against the M60 American-built tank, specifically the Yom Kippur War of 1973.
