A social problem is any condition or behavior that has negative consequences for large numbers of people and that is generally recognized as a condition or behavior that needs to be addressed. This definition has both an objective component and a subjective component. The objective component is this: For any condition or behavior to be considered a social problem, it must have negative consequences for large numbers of people, as each chapter of this book discusses.

### 1.1 What Is a Social Problem? - Social Problems

define social problems by conditions that our community objectively deems to be social problems. Most books about social problems contain chapters full of conditions that have been objectively determined to be harmful. A course taught with an objectivist approach would go though these conditions and teach about the issues and problems under that condition.
