Architecture Definition Includes Construction & Design

As nouns the difference between structure and architecture is that

Access Free Structure As Architecture A Source Book For Architects And Structural Engineers

structure is a cohesive whole built up of distinct parts while architecture is the art and science of designing buildings and other structures. As a verb structure is to give structure to; to arrange.

Structure vs Architecture - What's the difference? | WikiDiff

Conway's law is an adage stating that

Access Free Structure As Architecture A Source Book For Architects And Structural Engineers

organizations design systems that mirror their own communication structure. It is named after computer programmer Melvin Conway, who introduced the idea in 1967. His original wording was: Any organization that designs a system (defined broadly) will produce a design whose structure is a copy of the organization's communication structure.

Conway's law - Wikipedia

Architecture (Latin architectura, from the Greek ἀρχιτέκτων arkhitekton "architect", from ἀρχι-"chief" and τέκτων "creator") is both the process and the product of planning, designing, and constructing buildings or other structures. Architectural works, in the
