**Superforecasting: The Art and Science of Prediction ...** Book Review: Superforecasting: The Art and Science of Prediction by Philip E. Tetlock and Dan Gardner. One unfortunate consequence of all-day, all-night news channels has been the need to fill twenty-four hours every day with content, even when content is rare to be found. This initially gave rise to a redefinition of the word "news," as ...

**Book Review: Superforecasting: The Art and Science of ...** The title "Superforcasting, The Art and Science of Prediction" gives the impression the reader will learn how to be a predictive genius-or at least a learned novice. Well, not so much. The authors describe a cadre of people who are numerate, curious, and have no hard biases.
