The Green Skyscraper: The Basis for Designing Sustainable ...

Ken Yeang has become synonymous with the term "the green skyscraper". The Malaysian-born architect has changed our perception of the high-rise, questioning every premise on which it was founded. It has long been assumed that skyscrapers, as high consumers of energy and materials, cannot be sensitive to ecological and environmental issues.

Rethinking the skyscraper : the complete architecture of ...

Sidelights The pioneer behind the bioclimatic skyscraper and a designer of many green (environmentally conscious) large buildings, architect Ken Yeang has designed such buildings as Kuala Lumpur 's Me-nara Mesiniaga and Penang's UMNO Tower. His ecologically sensitive buildings feature both organic and inorganic elements.

Yeang, Ken | Encyclopedia.com

Ken Yeang has been designing eco-architecture for years and he has some great examples of having careful planning of green landscaping and consideration of the ecosystem in the building. It's a shame that his works are not mentioned here, he is a leading architect in eco-architecture design.
