This Lancet Group Commission advocates global reform of the care of separated children through the progressive replacement of institutional provision with safe and nurturing family-based care. It provides essential information on both the global scale of institutionalisation and its physical, social, and mental health consequences.

Lancet - Past Issues

The Lancet is a weekly peer-reviewed general medical journal. It is among the world's oldest and best-known general medical journals. The journal was founded in 1823 by Thomas Wakley, an English surgeon who named it after the surgical instrument called a lancet (scalpel), as well as after the architectural term lancet window, a window with a sharp pointed arch, to indicate the "light of wisdom ...

The Lancet - Wikipedia

Food systems have the potential to nurture human health and support environmental sustainability; however, they are currently threatening both. Providing a growing global population with healthy diets from sustainable food systems is an immediate challenge. Although global food production of calories has kept pace with population growth, more than 820 million people have insufficient food and ...

Background: Sepsis is life-threatening organ dysfunction due to a dysregulated host response to infection. It is considered a major cause of health loss, but data for the global burden of sepsis are limited. As a syndrome caused by underlying infection, sepsis is not part of standard Global Burden of Diseases, Injuries, and Risk Factors Study (GBD) estimates.
