NPS Archeology Program: Archeology for Interpreters

Archaeology, or archeology, is the study of human activity through the recovery and analysis of material culture. The archaeological record consists of artifacts, architecture, biofacts or ecofacts and cultural landscapes. Archaeology can be considered both a social science and a branch of the humanities.

Archaeology - Wikipedia

In the Bachelor's programme Archaeology, you will study past societies – from the Celts and the Romans to the Middle Ages and beyond – and their importance in today's world. Not only will you research and excavate the material remains of human activity, but you will also learn how this translates to knowledge about earlier cultures.
