In an abbey in Germany he came across a manuscript of a long-lost classical poem, Lucretius's De Rerum Natura ("On the Nature of the Universe"). This event is vividly described by the renaissance...

### The Swerve by Stephen Greenblatt - review | Books | The ...

As its subtitle states, it purports to tell us how the Renaissance began. Yet nowhere does it do so. More oddly still, the subject which supplies the very title of the book, the swerve, the physical phenomenon excogitated by Epicurus to explain why atoms act randomly and differently from each other, plays no significant role in the story.

### The Swerve: How the Renaissance Began | Reviews in History

It is rightly known as the Renaissance. Stephen Greenblatt has written a book, The Swerve, about one of those discoverers who remade culture and gained fame in particular from one book. On The Nature of Things by Lucretius. This work by a Roman of the first century BC is an extended poem about philosophy and science.

### The Swerve: How the World Became Modern by Stephen ...

And third, a story of renaissance, of the revival of a set of classical ideas about life and the natural world, triggered in part by Poggio's discovery of Lucretius' masterpiece. On the Nature of Things was cited by Montaigne, mentioned by Shakespeare, and read by Thomas Jefferson, among many other thinkers of the enlightenment.

### The Swerve: How the Renaissance Began by Stephen ...

Book Review: The Swerve by Stephen Greenblatt In the 16th century books were very valuable and a monastery was one of the few places a library could be found. Books were so valuable in fact that holy men would inscribe curses inside a manuscript to warn any light fingered reader against the flames of hell that will consume thieves for all eternity.
