Females are 3.8-5 cm long, with a wingspan of 7.5 cm. The males (only) have orange hindwings, and are smaller than the females (2.5 cm long, wingspan 5 cm). The coloration of the adults is cryptic when they are resting on the tree bark. Older moths tend to lose some scales, giving them an oily appearance.

I specialize in Red Wigglers - worm composting. I've been raising Red Wiggler Worms and Mealworms for over 40 years. I've raised African Night Crawlers, Canadian Night Crawlers and Gray Night Crawlers. However, I cannot find a tougher, quicker breeding and easier composting worm to raise than the Red Wigglers in a worm bin!
