You'll need a dash kit to install a DIN (2" tall) or double-DIN (4" tall) radio, and kits are available in gray or black. You'll have to remove the display from your dash and reinstall it in the Toyota kit. You'll also need a wiring harness that allows you to install a new stereo without having to cut into the factory wires.

Now I can pull the radio out. Notice there is TWO antenna cables. The bigger one is for the front antenna, the smaller one is for the rear antenna. I then remove the brackets that hold the radio housing in place. I will need to install these to my Pioneer. One thing I noticed was that my radio harness had TWO plugs.
