Rather than go over the basics of building a Dash app, I provide a detailed guide to building a multi-page dashboard with data tables and graphs. I built the reporting dashboard as a multi-page app in order to break up the dashboard into different pages so it less overwhelming and to present data in an organized fashion. On each dashboard page, there are two data tables, a date range selector, a data download link, as well as a set of graphs below the two dashboards.
