Vectra Engine Timing

A full timing belt replacement guide for a Vauxhall Vectra 1.8 VVTI model The Vauxhall Vectra has been a popular car on our roads ever since it was first launched in 1995. The recommended timing belt change interval is every 100,000 miles or 10 years and the engine has been identified as an interference type engine so, in the event of the timing belt failing, engine damage may occur.

Urgent Help needed Setting the cam timing on Vectra C Z19DTH.

There is an easy way to find out if your car is driven by a timing chain or timing belt motor. If, on the side (not top) of the engine, either left or right, there is a plastic cover, your car has timing belt. If there is no plastic on the side, you have a timing chain. Here is a video that explains and shows the point.

Which cars have timing chain or belt? - A. Diduc

Your timing belt should be replaced every 50,000–70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and the timing belt keeps them from touching. This is why you'll ...
