Librivox has many volunteers that work to release quality recordings of classic books, all free for anyone to download. If you've been looking for a great place to find free audio books, Librivox is a good place to start.

What Is Extruded Horse Feed

The extrusion process makes the starches and other nutrients in the feed easier for a horse to digest and absorb. Horses who have dental problems or digestive issues may do better on an extruded feed. In addition, the “airy” texture of extruded feeds means that a horse can be fed a larger quantity of food that provides fewer calories.

Extruded feed explained - The Horse Owner's Resource

Extruded feeds are more bulky than traditional sweet feeds or pellets, which reduces how fast horses eat their grain. Horses don't bolt down extruded feeds as quickly as other feeds. Extruded feeds pass through the digestive tract slower than other feedings, once again, improving digestion of the feeds.

Benefits of Extruded Horse Feeds

Extrusion is a process in which feed is cooked under high pressure with high temperatures for a short time. A feed slurry is created, which is then pushed through a small die while it is still hot; the release of pressure after coming through the die causes the feed to expand.

Extruded horse feeds pros and cons - IVC Journal

Extrusion is a process in which feed is cooked under high pressure with high temperatures for a short time. A feed slurry is created, which is then pushed through a small die while it is still hot; the release of pressure after coming through the die causes the feed to expand.

The pros and cons of extruded feed - Equine Wellness Magazine

Extruded feeds tend to soak the fastest and fall apart the easiest, which is advantageous for horses with poor dentition. Pellets and textured feeds may require slightly longer soaking times, depending on the product. All feeds forms can deliver essential nutrients in a palatable way. The right feed for a horse depends on his individual needs, including workload, body condition, and dental state.
