Write Like a Chemist. The necessity of technical writing often first becomes pronounced during a chemist's graduate studies. Beyond writing of manuscripts and a thesis, many graduate programs require students to write original research proposals in order to cultivate skills associated with proposing new ideas. This requirement is particularly helpful for those students who go on to be academic faculty because writing grants and proposing new research is a crucial part of running a laboratory.

Big Trouble (2002). To the extent that it's remembered at all, Big Trouble might be best-known for being one of a handful of movies that were pushed from fall 2001 until spring 2002 because of the September 11th terrorist attacks, after which movies with even a hint of terrorist-related plots (no matter how silly) were briefly considered too hot to handle.
